

This afternoon in the district court, a man named Magid is bringing a claim for \$500 against the city of Edmonton for injuries he is alleged to have received by falling of a street car last May. G. B. O'Connor is acting for the plaintiff and City Solicitor Bown for the city.

SERVICES FOR STRATHCONA IN THIS CITY TODAY

First Presbyterian Church Will Hold One of the Most Representative Gatherings Ever Known in Edmonton—Exercises Will Begin at Two O'Clock This Afternoon.

At 2 o'clock this afternoon the representatives of the church in the city as well as any who may not be in the habit of attending any church are invited to be present in the First Presbyterian church on Fifth street to witness the memorial service for the late Lord Strathcona.

This will be one of the most representative gatherings that have ever been held in the history of the city and those wishing to secure seats should arrive to be at the church some time before the hour when the service opens. At the hour of 1:30 the bell of the church will commence to toll and continue at one minute intervals until 2 o'clock.

The pastor of the church, the Rev. Dr. McQueen, will be the chief of address and will be delivered by Mayor McManara and the Rev. Dr. Dyde. In attendance will be representatives from the provincial government, the city council and many of the organizations in the city.

The government officials, the city of-

flowed many of the stores in the city will be closed during the service this afternoon that the employees may have opportunity of attending the memorial service. The complete program of which is as follows:

Organ selection—Marche Funèbre—Hymn 221—Verses 1, 2 and 3—Lesson—The Ven. Archbishop Gray—Prayer—Rev. Dr. McManara—Soprano solo—Know That My Redeemer Liveth—Miss Bessie Pihlak—Address—Mayor McManara—Hymn 224—Verses 1, 2 and 3—Address—Rev. Dr. Dyde—Antiphon—Hymn 221—The Choir—Prayer—Rev. Dr. Armstrong—Hymn 221—Verses 1, 2 and 3—Organ selection—Dead March in D—The Edmonton Hebrew association sent as representatives to the Strathcona services W. Diamond, president; H. P. Kline, vice-president; J. S. Forbes, treasurer; and J. Roseman, secretary.

LORD STRATHCONA SAID TO REST BESIDE HIS WIFE

Large Gathering of Prominent State Officials Attend Simple Ceremonies.

ROYALTY REPRESENTED AT WESTMINSTER ABBEY

Crowds Line Streets Near Residence to Pay Last Respects to Dead.

London, Jan. 25.—The body of the late Lord Strathcona and Mount Royal, high commissioner of Canada, was buried today with the most simple ceremonies in Highgate cemetery, North London. His body lies beside that of his wife, who died only a few months ago.

Before the interment a great funeral service was held in Westminster Abbey and was attended by a large gathering of state officials and prominent persons.

From the residence of the deceased, the streets were lined with crowds of people who reverently covered as the procession passed.

The pall bearers were the Duke of Argyll, the Earl of Aberdeen, the Marquis of Lansdowne, all former governors of Canada, Sir William Corder, the noted physician, Sir G. G. Leitchfield, Sir Thomas Harcourt, secretary of state for the colonies; Sir Thomas Skinner and Professor George Adam Smith, vice-chancellor of Aberdeen university of which Lord Strathcona was chancellor up to the time of his death.

King George and Queen Mary, Queen Mother Alexandra and several other members of the royal family were represented at the service in the Abbey. Most of the members of the cabinet and foreign ambassadors attended personally.

English Aviator Killed
London, Jan. 25.—George Lee Temple, a British aviator, was killed today while flying at Hendon. He was making an especially difficult descent when a strong gale wind caught the tail of his monoplane and the machine crashed to the ground. The aviator's neck was broken.

INDIGESTION, GAS, DYSPEPSIA GONE

"Pape's Diapiesin" fixes sick, sour, gassy stomachs in five minutes.

Wonder what upset your stomach, which portion of the food did the damage—do you? You don't bother. If your stomach is in a revolt, if you're gassy and upset, and what you just ate has fermented into starchy lumps, head dizzy and aches, belch gases and acids and eructate undigested food, breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't let an ailment like a weak, disordered stomach; it's so unnecessary.

CARRANZA SAYS DE LABARRA IS NOT ACCEPTABLE

Claims There Would Be Much Opposition to His Succeeding Huerta.

TELLS OF OVERTHROW OF THE MADRID REGIME

Public Opinion in Mexico Demands Government by the Governed.

Washington, Jan. 24.—Francisco de Labarra, successor to Huerta, was not acceptable to Gen. Carranza or other constitutional leaders. He should be Viceroy, confidential agent in Washington of the constitutionalists.

"Madero failed," said Carranza, "because he generously accepted the financial support of the reactionaries whose first manifestation was the unsuccessful and ruinous government of interim of De Labarra, who never ceased secretly to conspire against the Madero government, and who finally overthrew it through the blindest teachers known in modern times. With this element there can be no compromise. The people will not have a government which is the result of the struggle would, nevertheless, continue because public opinion in Mexico is in the United States demands government by the governed."

LORD STRATHCONA'S INTEREST IN BOYS

One of Latest Benefactions Was Donation of \$15,000 to the Scouts.

HAD FAITH IN MOVEMENT

Organization Utmost Value to Youths as Well as the Mother Country.

Ottawa, Jan. 26.—One of Lord Strathcona's very recent benefactions, showing the deep interest he took in Canadian boyhood, was a promise to contribute \$5,000 a year for three years to a fund being raised to permit the appointment of a dominion secretary to travel through Canada and organize his Lordship's offer was conditional on the raising of an equal amount from other sources. A passage from Lord Strathcona's letter on this subject reads: "On the initiation of the boy scouts movement some years back, by General Robert Baden-Powell, I considered it my duty to place at his disposal the means necessary to enable him to proceed with the project, owing to the fact that at that time very few had and believe that it would be a useful association. I was very happy to give him the substantial aid which enabled him to proceed with the work. I mention this to show that I have always been in favor of the boy scouts organization and management the movement could not fail to be of the utmost value both to the boys themselves and to the mother country. The present position of the Boy Scouts association in the United Kingdom, in Canada and in the other dominions beyond the seas shows how wisely General Baden-Powell judged of the outcome of the project."

Stark Slowly Recovering
The many friends of J. W. Stark, manager of the Edmonton Exhibition, are pleased to learn that he is slowly recovering from his illness. He is now able to sit up and is expected to be well enough to be up all the time.

FORMER CONGRESS MEMBER CONVICTED ON BRIBERY CHARGES

New York, Jan. 25.—William Willott, Jr., former democratic member of congress was convicted late Saturday night of bribery in attempting to purchase a supreme court nomination in Brooklyn and Queens County in 1911. The jury had the case under consideration but 40 minutes. Willott was remanded to jail for sentence next Friday.

DINE TO REVERE NAME OF BURNS

Scotsmen, Sons of Scotsmen and Others to Meet at Empire Auditorium

PROGRAM IS EXCELLENT

Affair Will Start Right on Time, and All Are Advised to Arrive Early.

In Edmonton tonight, as in hundreds of other cities all over the world, Scotsmen, the Sons of Scotsmen and others will gather together to reverberate the name of Robbie Burns, the poet whose sterling democracy, independence and honesty endears his name even more than his characteristic ability to not only of the race from which he sprung, but of all nationalities and creeds.

Robert Burns was born in Kilmarnock, Scotland, on January 25, 1759, of poor Scottish parents. Like probably most other men of great genius his work was not noticed or appreciated until after his death, which occurred in 1796, after a somewhat checkered and stormy career.

Those who know him best claim that his unbounding openness made him feel the work of the poet was in him, as it is in every human being, as well as the good. He was big of heart and died comparatively poor in things material, but left behind a name that will find a warm spot in the hearts of the people of this great modern world; but particularly, of course, among those who directly or through ancestors claim relationship with him and those of Scotch blood, which Burns did so much for.

Tickets for tonight's banquet are two dollars each and can be obtained at Henry's grocery store, George's avenue, and at the door of the Empire auditorium, where the festivities and speeches will take place, up till 8:30, the hour of commencement.

The proceedings will start right on time, and the entertainers are urged to be on hand before the time, as Pipe-Major Colville will refuse everybody with the skirt of the pipes, which will turn the "charities" will be brought triumphantly in, promptly as the clock strikes 8:30.

The following is the program and toast list arranged:

The King and Royal Family—Chairman.

"The Immortal Memory of Robbie Burns"—Reply by Rev. E. McKim.

"There was a lad was born in Kyle"—Mr. R. A. Holmes.

"The Land we love"—Reply by Hon. D. Marshall.

MOONED POLICE FINAL CAPTURE FIGHTING TRAPPER

Charged With Supplying Indians With Liquor, and Resisting Arrest.

HELD OFFICERS AT BAY WITH HIS AXE AND GUN

They at Last Came Upon Him Unawares, and They Make Him Prisoner.

(Special to the Capital.)

Regina, Jan. 25.—Joseph Trotter, a trapper at the Dupont district, has been arrested by the R.N.W.M.P. and charged with supplying liquor to the Indians and with resisting arrest. Some time ago a warrant was sworn out by W. Sibbald, Indian agent at Onion Lake, for the arrest of the trapper, who alleged to have been making a regular business of supplying the Indians with whisky. Constable Jenkins, of the mounted police, left Beaver Lake on January 16 to arrest Trotter. It was not until the evening of the 17th, that the constable and his vicinity in which the man was supposed to be. On January 18 Constable Jenkins reached a camp and a guide and patrolled to Trotter's camp, which was located on the north side of the lake.

While on his way to the lake, the constable met a trapper who told him that Trotter was at his camp and had threatened to shoot if anyone attempted to arrest him. Jenkins, therefore, armed himself with a .22 Winchester rifle.

Arriving at the lake, he recognized Trotter standing at the other end of the water. The constable called to him if he were Trotter. To this the man replied "No," at the same time backing up to the tent.

Suddenly Draws Gun. Suddenly putting his hand inside the flap of the tent, he drew out a gun and tried to raise it and take aim at the constable. Jenkins instantly covered the man with his rifle, and at the same time ordered him to drop the gun and put up his hands. It was not until after the constable and guide had shot him, that the trapper finally dropped the gun, but refused to put up his hands.

The officer then began to work his way around the lake until he was directly in front of the man, who was ordered to get the constable. Trotter, search the man for any further weapons, while he kept him covered with his rifle, but owing to the darkness and gestures of the men the guide was unable to reach him.

Trotter then grabbed up an axe, which was lying at his feet, and which had not been noticed by the constable, and said:

"You will never be able to take me alive. Why don't you shoot? Shoot!"

Seeing that the constable was unable to reason, the constable told the guide to go to the camp of Frank Hood, a trapper, about half a mile away, and bring him his partner.

Starts for the Bush. As soon as the guide left Trotter started to move off to the bush, despite the threats of Jenkins that he would shoot him if he failed to stop. The man, continued on his way, carrying the axe over his shoulder.

The officer then took aim and shot the axe off the man's shoulder, and a second's hesitation the man stopped and picked the axe up again. All this time Trotter was loading the policeman, saying:

"You're afraid to shoot me. Why don't you shoot?"

The constable then got a chance to read the warrant to the man, who did not listen.

By this time the guide and the two trappers had returned and the man started to lead them to the bush, and threatening them with the axe.

Jenkins then took aim again and shot the axe out of the man's hand, thinking that the men would then make a rush and secure Trotter, this time he was unable to do so. Seeing that it was useless to try and take the man with the assistance at hand, the constable ordered the guide to lead the trappers and stayed.

Returning the next morning, the constable found that Trotter had gone, but traced him 24 miles to a shack, where in all probabilities he had stayed overnight. From there Jenkins tracked him five miles to the Beaver river. Here the tracks turned to follow and as his horse was unable to rise, he was forced to dismount and follow on foot. He was finally forced to return.

Finally Made Prisoner. Every effort was immediately notified and a strict watch kept for the man. Hearing that the man had again been seen, the constable immediately set out to catch him. He was finally caught near a place called "The Trap," and was taken to the Regina jail.

In his report, Constable Jenkins stated that the reason that he did not shoot and wound the man when he was afraid that he would shoot him, was because he was afraid that he would shoot him, and he was afraid that he would shoot him.

Judging from his actions, both before and after his capture, it is thought that Trotter is slightly insane.

Candy Contained Morphine. The inquest on the body of P. Rupert, who was found dead in the Queen's Hotel, Regina, last night, was held until Tuesday evening at 8 o'clock. The reason for this is to allow a witness in the case to be present for the time is out of town. The candy which was found on the dress of the man who was found dead, was analysed and is said to contain traces of morphine.

"Watch Her Eat!"

EDMONTON EADS CALIFORNIA CITIES

Much Ahead of Them in the Matter of Civic Government, Says Crisfall.

FAVORS PUBLIC OWNERSHIP

More Than Ever Convinced that Municipal Operation is the Proper Thing.

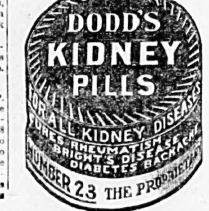

A. Crisfall, who came to Edmonton in 1895 and has large interests here, has arrived back from southern California where he has sojourned for the past 16 months for the sake of his health and is registered at the Royal George.

While in the Golden State he has been particularly occupied with public utilities and the operation of public utilities, with a view, he says, of possibly making some suggestions to the city of Edmonton along those lines.

"I am as much an Edmontonian as ever," he said to a Capital reporter this morning. "I am also more convinced in favor of municipal ownership and operation of public utilities than ever, after my observations."

Stock Much Watered. The commission investigated this, as it was claimed that the price was much too high, and it was found that \$129,000 had been invested, \$10,000 more borrowed from the banks, and \$150,000 of additional watered stock issued, so that the people were paying premiums on money twice as much as had been invested. And the funny part of it was that not one paper in the city has criticized it.

Mr. Crisfall thinks, however, that Los Angeles has the finest suburban electric railway system in the world, and that is what keeps tourists there. There are so many different places to go to at a very low price by electric railways that it takes about a month to see everything, and it can be done at a comparatively small cost. He thinks Edmonton is far ahead of any California city in the matter of electric government, but that the people should take a larger interest, and thus get the city in the hands of the people, should be run like a big corporation.

AWFUL BUTCHERY BY REBEL TROOPS

Reported Massacre of Women, Children and Federals at Matehuala

TWO OFFICERS ESCAPED

State Killing Took Place After All Had Surrendered to Soldiers.

Mexico City, Jan. 26.—One hundred women and children and 150 federal soldiers were massacred by rebels recently near Matehuala to the north of San Luis Potosi, according to reports received here today. The soldiers with the women, surrendered to the rebels and were taken to a ranch near Matehuala where the alleged butchery occurred.

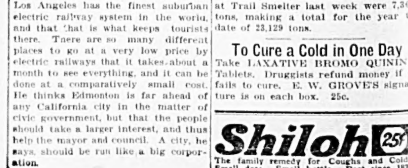

Major Rebollo and Captain Ramirez and a handful of men were the only ones to escape. They arrived here today, bringing news of the affair which occurred several days ago.

SENATE DECIDES TO SPEND HUGE SUM ON ALASKAN RAILWAYS

Washington, Jan. 26.—By a vote of 46 to 16, the senate passed late Saturday the Alaska railway bill, directed the president to purchase or construct 1,000 miles of railroad in Alaska at a cost not to exceed \$40,000,000.

Trillion One Receipts
Nelson, B.C., Jan. 25.—One receipt at Trail Smelter last week were 7,561 tons, making a total for the year to date of 25,129 tons.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE Tablets. Brings relief money if it fails to cure. E. W. GROVES' signature is on each box, 25c.

PROPOSAL TO USE OIL FOR FUEL ON BOATS FRUSTRATED

Lord Murray Returned From
Columbia a Beaten and Dis-
appointed Man.

CHURCHILL'S PROGRAM IS RENDERED IMPRACTICABLE Canadian and American Boat Englishman Out of Gaining Concessions.

London, Jan. 26.—Lord Murray of Elibank, who refused all requests for interviews since he returned to England, in a speech last Wednesday at a dinner given at the Barbours restaurant in London, following the London of the departments of Sir Weecham Pearson and Sons, told his intimate friends and business associates gathered there the inside story of his South American trip.

Lord Murray acknowledged he had come back a beaten man, and said that his chagrin and disappointment were so deep that he could not go into all the details.

England is now compelled to return to the smaller type of ship and to the smaller calibre of guns, for the announced British policy of construction of warships depended wholly on obtaining the adequate oil fuel, which Lord Murray was to find in South and Central America.

Five New Ships

The battleships voted last year of the Queen Elizabeth class are of 25,000 tons, and 25 knots, with 15 inch guns, using exclusively oil fuel, and which, according to the program at that time, stated that in future all ships of the British navy would use oil fuel. The admiralty planned to build five battleships according to this year's program of 30,000 tons each, but Lord Murray's campaign having failed, the announcement was made last week quietly, almost casually, that the five battleships of this year's program would be of 25,000 tons and 21 knots, with 13.5 inch guns, and using the petroleum fuel and oil only an auxiliary.

Meanwhile all the great powers except France are adopting either 12 or 14 inch guns while all are building battleships of vastly greater tonnage than the new British ships. Germany and Italy will have 15 inch guns on ships of 29,000 and 30,000 tons; cruisers 14 inch guns on ships of 32,000 tons; Japan 13 inch guns on ships of 25,500 tons; the United States, 14 inch guns on ships of 31,400 and 35,000 tons, and France 13.5 inch guns on ships of 25,500 tons.

Tonnage Not Everything

Navy critics say the heavy ships and guns are sufficiently powerful to show small vessels out of the water and that England with its light weight fleet would be swept off the Atlantic case of war by an adversary having numerically a smaller fleet but a preponderance in tonnage armament and speed. Nevertheless since Lord Murray's failure the admiralty is powerless, as all its calculations were based on oil fuel. To cope the climax of admiralty war, after spending \$125,000 in trying to perfect electric light bulbs for the moving turbines of the Queen Elizabeth, all the machinery has had to be torn out and replaced by hydraulic machinery.

When Lord Murray went to South America, J. Chester Thompson, a Canadian, of Toronto, of the Columbian syndicate, limited, and Chas. E. Oils of New York, president of the syndicate had been in Columbia for two years prospecting for oil and acquired large tracts of land in various parts throughout Colombia, Argentina and under Colombian laws, but the titles have not yet been perfected by government recognition of the documents.

Lord Murray persuaded Dr. Araujo, Colombian minister of education, to repeal by executive order the laws governing the denouncement of oil and mineral lands, thus giving the rights of all these lands, which were not completed, by government recognition. Immediately afterward Lord Murray's concession was signed by Dr. Araujo and introduced in the Colombian congress for ratification.

Advantage of Records

A letter signed by Lord Murray reads of the large sums expended in Colombia, but does not give any details. The repeal of the law by Dr. Araujo and the terms of the concession gave Lord Murray access to the archives in the Colombian Archives, enabling the Englishman to take advantage of the records on oil and coal for the two years investigations conducted.

Dangerous Throat Troubles Prevented by Nerviline IT ENDS MISERY OF NERVINE QUICKLY.

Don't wait till night. Get after your cold now—this remedy, before it grows dangerous you should apply old-time Nerviline. Rub your chest and throat, wet them thoroughly with Nerviline. Relief will be immediate. Nerviline will save you from lying awake tonight, coughing, choking, chest and acute pain in the throat. Nerviline will break up that dull neuritic headache—will kill the cold and chill at its very beginning—will save you from perhaps a serious illness. To take away hoarseness, to break up your cold, to cure a sore throat or bad cold in the chest, you can use nothing so speedy and effective as Nerviline. It is forty years old, and has been largely used family remedy in the Dominion. Time has proved its merit, so can you. It is a soothing, it is the shelf the large five family size bottle, small trial size 25c, sold by your dealer anywhere.

ed by Thompson and Oils and to seize under the concessions all the valuable ground the Colombian syndicate discovered.

Thompson and Oils hurried to Bogotá and started a plan to talk Lord Murray, the result of which was that Lord Murray's concessions failed of approval in congress while the Columbians became bitterly antagonistic towards Lord Murray, through spending large sums and representing himself as a powerful number of the British government, and a leader in parliament of the great English liberal party, sought to make Colombia, not merely an ally of Great Britain but to put the country into the pocket of a simple private corporation—namely Thompson.

Thompson and Oils continued their campaign through South and Central America, visiting the governments everywhere and Lord Murray returned totally unsuccessful, beaten in all the American oil fields. Dr. Araujo rescinded his appeal of the old law and the titles of the Thompson-Oils syndicate were annulled by the government resignation while the Colombian congress passed a new law confiscating all mineral lands and mineral lands to citizens of the republic of Colombia.

PURPOSES TOLD OF BY PRESIDENT DYCE

Describes the Aims of the Pro-
jected American-Canadian
Association.

FOR UNION OF FRIENDSHIP Hoped to Have Great Men of Both Countries to Be Heard in Addresses

(Special to The Capital)

Medicine Hat, Jan. 26.—To answer the many inquiries he has received regarding the projected American-Canadian association, Charles E. Dyce, the president, has issued a statement in which he says:

"Just now the American-Canadian association is a vision of what may come to pass. You know that America possesses a genius for making dreams come true; and so we see, in the very near future, an organization of the sons and daughters of Columbia, numbered by hundreds of thousands, reciting the glories, singing the songs and waving the flags of Canada and their native land."

"There is, in our judgment, no better way to develop enthusiasm and communitarian inspiration than to bring people together in mass convention. Our immediate efforts, therefore, will be directed toward arranging for a great American-Canadian convocation or reunion. This we hope to call for September at some point of joint interest in Western Canada. In attendance at that convention there will be some of the great men who are shaping the destiny of Canada and on the same platform there will be statesmen who stand high in the public life of America. That this convention will mark an epoch in the history of the English-speaking peoples is our firm belief, for it will give to all eyes a vivid demonstration of mankind the solidarity in interest and purpose of the millions who constitute the new transatlantic race. It will tell them that the world should see in Canadians, and through them, a once alienated people, in spirit reunited."

"And so the reunion is the big idea at present. What the association will stand for in the future can not yet be determined. It is enough to say that it will be on the firing line in every campaign to extend the outposts of civilization."

MINISTERS RETURN FROM CONVENTION OF UNITED FARMERS

Hon. Duncan Marshall, Hon. A. J. McLean, Hon. Charles Stewart and Hon. William Garfield were among those who returned to the city Saturday night after the conclusion of the United Farmers of Alberta at Lethbridge. All four of the cabinet ministers addressed the farmers gathered in the short courses in agriculture at Warner and Carmichael. He stated today that farmers drove to Winnipeg from the east for as far as 50 miles, so great is the interest taken in the courses. He leaves Friday night for the Island, where the courses are being held this week. H. A. Craig, superintendent of demonstration farms, leaves for that point this evening.

Canadian Stock Prices

London, Jan. 26.—Following are the latest quotations of active dominion, provincial and municipal stocks: Dominion of Canada, 1908, 24, 25c; 1909, 24, 25c; 1910, 24, 25c; 1911, 24, 25c; 1912, 24, 25c; 1913, 24, 25c; 1914, 24, 25c; Dominion of Canada registered, 1908, 3, 3c; 1909, 3, 3c; 1910, 3, 3c; 1911, 3, 3c; 1912, 3, 3c; 1913, 3, 3c; 1914, 3, 3c; Newfoundland sterling bonds, 1917, 3, 3c; 1918, 3, 3c; SUNDAY LAWS ARE FOUND FAULT WITH

Visitor Said He Thought He Would Be Arrested For Asking For Cigar.

TO HUNT HERE IN THE FALL

Tells of the Vigorous Work of the Boosters in Behalf of Los Angeles.

To have travelled from Los Angeles to New York state to find out the whereabouts of his parents and brother, whom he had not seen for sixteen years, and to whom he had not written for eleven, and to have travelled back from New York state three first, to finally see them, is the experience of C. L. Taylor, a wealthy attorney of Los Angeles, who just passed, as he left the city on this morning's Alameda train on the last lap of his homeward journey.

His folks are due for the surprise of their lives, as they do not know he is coming, unless Mr. Taylor is delayed and the Capital gets there first. They have been twelve years in the country, coming here from New York state. They live about four miles from Westlock, a new town on the Edmonton, Dunvegan and R.C. railway, and about ten from Chisle, on the C.N.R., from which point Mr. Taylor will drive this afternoon.

His brother, E. C. Taylor, who resides with the parents, Mr. and Mrs. C. M. Taylor, was born on January 28, exactly twenty-one years after the birth of C. L., so that on Wednesday next a double birthday celebration will be held at Westlock at the home of the parents, who are said to be big ranchers of that part.

Mr. Taylor says that Los Angeles has the greatest boosters in the world, and that they would have built a city even if they had nothing but hot air. He says that many people go there imagining that because the climate is good one can sleep outdoors and live cheaply, but that one cannot live outdoors in winter there any more than in Edmonton. The first winter he spent in California was one of the coldest he ever experienced.

"I believe," he said, "that it is the Sundays here you have that hurts you, not your climate. I thought I was going to be arrested Sunday for asking for a cigar. On Sunday here one feels like I felt in North Dakota, where there was prohibition, and where one cannot get a drink of beer even on the sabbath. Now, I do not drink once a month, but immediately as soon as I heard we could not get beer I wanted a bottle, and others on the train were the same way."

Mr. Taylor will go back to California via Calgary and Seattle in a few days. He said last night that there was a party from Los Angeles leaving for Muskoka, Ontario, with a view to spending next fall hunting and fishing there, but after his conversation

BOARD OF TRADE REPORTS PROGRES IN VEGREVILLE

Vegreville, Jan. 26.—The Vegreville board of trade held its annual meeting in the town hall on Tuesday, January 26, when the routine business was once more satisfactorily dealt with. The secretary was able to report increased business in the town, substantial extensions to business premises, and several new brick buildings having been erected during the year. Whilst the civic improvements, comprising the installation of the sewers, water mains, power house, and elevated tank and reservoir, are works that will contribute much to the healthiness and safety of the inhabitants. Reference was also made to the success attendant in the gas well, a proof of which is the illumination of the main street with this gas.

The following was the result of the election of officers for 1914: President, W. Clement; senior vice-president, A. W. Fraser; secretary-treasurer, A. J. Gould; councillors, Mr. H. S. Monkman, A. S. Maxwell, W. T. Clement, Dr. R. M. Reid, Dr. A. H. Goodwin, Charles Gordon, M. A. Worth, H. H. Hacker, P. M. Doherty, T. H. Tierney, P. A. Morrison, F. Wilson, W. C. Ross, L. D. Worth, D. Gillies, and C. P. Gray.

It was proposed to petition the superintendent of the C. N. R. to renew the train known as the day-light service between Battleford and Edmonton. The present service being so inconvenient to the travelling public of the intervening towns.

The board of trade will apply to the town council for the usual grant, this year \$2,000 will be asked for.

MUNICIPAL OFFICES AT ATHABASCA ARE DESTROYED BY FIRE

Athabasca, Jan. 26.—The municipal offices of Athabasca were practically destroyed by fire on Saturday, the damage, estimated at \$2,000, is covered by insurance. From the investigation already made it is clear that the fire originated in the basement, where the police station and cells are situated, and probably arose from an over-heated stove. The waterworks, which closed this morning, were the cause of fire, time to prevent the gutting of desks, adding machines and other office building. The local documents were preserved by the safe, while five utilities were removed before the utilities were removed before the flames took hold. The mayor and council inspected the ruined building yesterday. The Grand Union hotel, costing \$2,000, was opened this morning. The official ceremony will be characterized by a town demonstration. The restoration committee is re-building scheme in the business section of the town.

With a Capital reporter will go and see Charles Hotchkiss, provincial publicity commissioner, and likely change the party's vacation (the next fall) to northern Alberta. They have gone as far as Mexico to find good fishing, but next fall they will go north and find fishing holes.

Big Specials in Small Items

15,000 Yards of Beautiful Dress Goods in a Great Sale at Less Than

Wholesale Cost—Values 85c, \$1.00 and \$1.25 at 50c

The large dress goods mills make thousands of bolts of each kind of goods. When the quantities on hand get small the samples are called in from the travelers so that they shall not sell more than was manufactured. It frequently happens that after the samples are called in there still remains on hand a few bolts of goods—anywhere from one to ten or more pieces. These small quantities are sacrificed at very low prices. We secured 15,000 yards of these goods—left over pieces. They go on sale Tuesday at an average of half their value. There are serges, chevots, poplins, rosettes, shadow striped etamines and heavy tweeds. The colors are grey, tan, fawn, brown, blue, garnet, rose, wisteria, green and black. There is not a piece in the lot that can be bought regularly for less than 85c per yard. Most of it is \$1.00 and \$1.25 quality. Sale price 50c Tuesday, the yard

ENTRANCES ON FIRST, HOWARD AND ELIZABETH STREETS. LIMITED

We Have Determined to Manufacture in Our Edmonton Factory the Best Dresses that it is Possible to Obtain in Canada at \$5.00

There are two reasons why these \$5.00 dresses must be far superior to the ordinary dresses at the same price. First, we manufacture them for our own trade, and we certainly must make the standard of Ramsey-made garments very high. Secondly, they are Edmonton made goods and, especially now, at the beginning of the garment manufacturing period in Edmonton, it is up to us to prove to you that Edmonton can produce just as good garments and better values than those imported from the East. The character, the style, the fit and the values of these dresses are such that we are proud of their having been made in our own city and especially proud of their having been made by Ramsey's.

These dresses are made of good grade pure wool serges and Panamas in navy, black and brown. There is a wide assortment of styles, most of them with low neck and collar of fancy velvet, embroidered laces, plain silks or checked materials. Sizes are 14 to 44. Every dress offered is a good smart style and an exceptionally fine value. Each \$5.00

PROVED NEWSPAPER ADVERTISING BRINGS EXCELLENT RESULTS

London, Jan. 26.—The working out of the scheme for recruiting the British army by means of newspaper advertisements, which was recently tried by

the war office, offers excellent testimony of newspapers' publicity. About ten days ago the war office inserted in most newspapers alluring announcements, detailing the advantages of the enlistment in the army, and inviting would-be recruits to write for a booklet containing further information. Fifty thousand copies of this booklet were prepared and dis-

tributed. The results show that the advertisement reached the quarters which it was desired to reach. What results have been obtained in the increased number of enlistments, however, is not yet announced.

Berlin prohibits exhibition of exercises on wax models in store windows.

Const Residents Interested. William Gordon, of Fort McMurray, is at the Royal George hotel, on his way to the north from a month's visit to the principal cities on the Pacific coast. He reports great interest in northern Alberta and the A. & G. W. railway by the people of the Pacific slope.

Arrests Ended Strike. Laidlaw, Jan. 26. The railroad strike which began January 14 was declared ended Saturday night. The employees returned to work without having obtained any advances. The recent wholesale arrests of the ringleaders of the general strike by order of the government led to its collapse.

(The Space for this Advertisement is Donated by the Capital to Help the Cause).

PLACE YOUR NAME on the ROLL OF HONOR

No Matter How Small the Amount Send it in---If You Can't Afford More Send \$5---\$35,000 Already Pledged

Edmonton Needs Gas

We all know that Edmonton needs gas. Help her to get it. If you want to see Edmonton bigger and more substantial, do your share to make her so. The great boost you can give Edmonton is to help her get gas. (Gas means cheap power; cheap power means new industries mean pay rolls—and that's what every business man wants to see—no help Edmonton get gas.)

This Is the Story in Brief:

The Edmonton Ad Club wants to raise \$50,000 to test this field. The work of sinking three wells will begin 24 hours after the money is subscribed. We'll know in 90 days whether or not the experts are right and whether or not we will have gas and cheap power. Mr. Brodie, the city gas expert, is to have charge of the work. If we are successful all rights will be given to the city of Edmonton at actual cost. If we fail we will lose our money, and be proud of having tried—for having risked our money for the good of Edmonton when there was no chance for personal gain. Are you game enough to do likewise? Are you public spirited enough to join us? There is not much likelihood of losing. It looks like a winner. If you are with us send in your subscription to the Ad Club. One-fifth of the amount at once, the balance to be paid when needed to prosecute the work. The following have subscribed the amounts opposite their names. They are not fools. They are not throwing away their money. They are sure they will get it back. But if they don't get it back they'll have the respect and gratitude of the city for their good intentions. The subscribers up to Monday 12 o'clock are listed in the next column in the Roll of Honor.

Up to the time of going to press \$35,000 has been pledged by the men listed in the Roll of Honor. How much will you give? If you've made money in Edmonton you owe it to help her get gas. Gas for Edmonton means a bigger and better city—a city that will make still more money for her. Are you public spirited enough to risk, for the good of Edmonton, a small part of the money you've made in Edmonton? You may never see your money get it back now, but we believe that you will get it back, but you may not. We have no criticism to make of you if you will not join this civic enterprise—but you will grow bigger in your estimation and greater in the respect of your fellow citizens if you do your share.

We Are Confident Because

We are working on the recommendations of the best available experts. This is not a haphazard guess. The Dominion Geologist has outlined the gas area in Alberta. Vegreville, on the edge of that area, has gas. Camrose, on another side of that area, has gas. Castor, along the outskirts of that area, has gas. If these cities located along the edge of this area have gas in limited quantity the heart of that area will yield all the gas Edmonton needs. The greatest gas experts say so. Mr. Clapp, now making an investigation for the Chinese government, and Mr. Huntley, exploring Mexico for that government, say that we'll get all the gas we want about 16 miles southeast of Vegreville.

Prove that You Are Public Spirited!

Don't let others do it all. Get some of the glory for yourself. Why, man, if you'd know how good it feels to ride in this band wagon you couldn't be kept out. Every man who has subscribed will tell you that he feels better because of what he gave than if he had made the same amount. It's a great feeling! To know that you've laid out money, unselfishly, for the public good—knowing that you can't make a direct profit. Just try it and see how much more respect you'll have for yourself the moment after you've made out that check—\$35,000 was subscribed at the time of going to press.

Let's Make It \$100,000

Let's give everybody a chance to help do this great thing for Edmonton. One-fifth of the amount subscribed is cash down—the balance later, when needed. If \$100,000 is subscribed we get \$20,000 cash, and if the first well is successful there may be no need to collect the balance of the subscription. Should it be necessary to sink all three wells, we shall have to collect half of the total amount subscribed; if only \$50,000 is subscribed, the entire subscription will have to be collected—unless the first well will give us the gas we want. Come on in—let's make it \$100,000.

STRATHCONAS VS. PENNANTS TONIGHT: EDMONTON BONSPIEL TO COMMENCE FEBRUARY 10th

MCDUGALLS LOST TO OLD TIMERS SATURDAY: 32-19

Winners Were Handicapped 10 Points and Won Out in Last Two Minutes of Play.

In a senior league basketball game Saturday night at the Y.M.C.A., the Old Timers defeated the McDougalls by 32 to 19. The winners were handicapped ten points, and so it will be seen that the McDougalls came within four points of winning. But the poor old McDougalls have struck the "slide" and it is very hard to say just when they will stop. As in the last league, they beat the easy teams first, and when the time came to go up against the better ones, the McDougalls were sadly lacking.

In Saturday night's game, Valentine and Stevens played effective basketball, and for the losers, Tompkins, Jackson and McKnight were the best. It was a nip and tuck game all the way, and many times the McDougalls were well up on points, but the Old Timers were not to be denied. In the last minute or two of the game, came through with the necessary baskets. Altogether, there were 30 fouls called during the game, and this is altogether too many for one performance. Referee George Parney may have been somewhat strict with the whistle. The half-time score was 13 to 7 for the Old Timers.

Summary of Game.

Old Timers	McDougalls
Hammond, center . . . 3	2
Dave, forward . . . 4	0
Stevens, forward . . . 4	1
Valentine, guard . . . 1	2
Elliot, guard . . . 2	0
McDougalls	
Tompkins, center . . . 4	0
McKnight, forward . . . 4	2
Tait, forward . . . 0	0
Ross, guard . . . 0	0
Jackson, guard . . . 2	1

Sam Langford Wins.
Paris, Jan. 26.—Sam Langford, the negro pugilist, knocked out Pat Curran, the English heavyweight, in the first round of a scheduled 20-round bout Saturday night. Most of Langford's blows landed on the face. Curran was hoisted when he was leaving the hall.

Bombardier Wells Wins.
Cardiff, Wales, Jan. 26.—Bombardier Wells Saturday night knocked out Pisto, a French heavyweight, in the first round.

WILL HOLD BONSPIEL HERE IN FEBRUARY

Tuesday, the 10th, Will Be Opening Day—Meeting Held Saturday.

19 SHEETS AVAILABLE
Will Ask for Grant From City—Bonspiel Headquarters Will Open Soon.

That Edmonton will hold a bonspiel this winter, was decided Saturday at a meeting of representatives from the four curling clubs in the city at which M. W. Webb of the Capital City club presided. The spiel will be of about a week or ten days duration and will commence February 10th.

An elaborate program will be arranged by committee appointed for that purpose; 19 sheets of ice will be available and a committee has been appointed to arrange the prize list, etc. A hard luck prize will be given to the rink winning the least number of games. The following committees have been appointed to make all arrangements:

Executive committee—John Dunlop, chairman; James Miller, A. W. Come, E. H. Simpson and R. J. Richards.
Prize and subscription committee—John Dunlop and E. H. Garrison will canvass the territory east of First street on the north side; M. W. Webb, John Blue and R. J. Miller, the south side.
Draw committee—R. J. Richards, John Blue and the bonspiel secretary.
Bonspiel secretary: To be appointed later.
Prizing committee—E. H. Garrison and John Blue.
Reception committee—C. B. Macdonald, chairman, assisted by will corders from the four local clubs.
Official umpires—S. R. Mahon, W. H. Sheppard and J. Miller, from the south side; L. Goodrich, R. B. McLeish and J. Dunlop, from the north side.
Frank Young, A. W. Come and E. H. Garrison, from the Highlands; T. M. Turnbull, R. J. Richards and J. M. Thom from the Capital City.

LAMY WON TWO RACES FROM GEO. BELLEFEUILLE

Splendid Exhibition of "Trick" Skating, by Lamy Bros. Followed Big Event.

The announcement that Edmund Lamy and Geo. Bellefeuille would meet in a series of races for a side bet of \$500, caused a crowd of 500 people to journey to the south rink Saturday night to witness the performance.

The fair sex were well represented, and the races and exhibition of trick skating by Lamy Bros. and the admission price of "two bits" entitled one to both privileges.

About 8:30 a small man with a big personality introduced the contestants as follows: "Edmund Lamy, champion skater of the world," and the "red devil," peeling his sword, displayed a very well built and well proportioned figure. "George Bellefeuille, champion skater of the world," and a number of adjectives greeted the Edmonton athlete. The gentleman then announced the races would run 1-4 mile, 1-2 mile, 6 laps and 1 mile, 12 laps; and that the race was for the best two out of three.

The first race was 1-4 mile, 3 laps, which Lamy won without any difficulty. Bellefeuille, in making a turn on the second lap, fell and was skidding the last lap alone, was announced the winner. Time—28 seconds.

In the half mile race, 6 laps, Lamy led the first lap, Bellefeuille led the second and third laps, but Lamy shot to the front at the fourth lap and came home an easy winner. Time—1:28. This making the second win for Lamy. It was unnecessary to skate the mile race.

The Lamy Bros. then put on an exhibition of trick skating and barrel jumping, starting with three barrels. Ed Lamy kept adding one, until he had jumped over nine barrels. The boys then showed some clever work by looping and leaping over the barrels, both forwards and backwards, and on one foot. Perhaps the best work of the evening, was when, with his brother perched upon his shoulders, Ed Lamy made a backward leap over four barrels and closed his performance with what he calls his "chiller." A barrel being suspended from the roof at a height of about five feet from the ice, Lamy gets in great speed and makes a dash over the barrel during a complete somersault in mid air, and alighting safely on his feet.

Bayley and O'Leary Again.
Victoria, B. C., Jan. 26.—Arrangements have been made to stage a rematch between Joe Bayley and John O'Leary, near this city the latter part of February. Both boys signed articles and posted forfeits. In their battle of February by a knock-out in 15 rounds.

Toronto Varsity Won.
Toronto, Jan. 26.—Varsity and McEwen clashed in the first local intercollegiate game here Saturday. The blue and white put on their strongest line-up in a real slugging affair, downed the visitors 5 to 0.

Ritchie vs. Wolgaat.
Chicago, Jan. 26.—Willie Ritchie, lightweight champion, and Ad Wolgaat, who landed Joe Rivers last Friday, were matched Saturday to box to rounds at Milwaukee the first week in March, according to an announcement Saturday night by Wolgaat's manager.

Saturday night by McGeorge.

OTTAWAS TRIMMED TORONTOS 4 TO 1 BEFORE BIG CROWD

Seventh Straight Victory for Senators—Over 7000 People Saw Game.

Ottawa, Jan. 26.—The Ottawa continued their winning streak in the National Hockey association last night beating Toronto 4 to 1. That makes it seven straight for the Senators and puts them on top in the Stanley cup race.

For 37 minutes there was no score. Seventeen minutes after the second period had begun, Darrach, dashed from end to end and scored for the Ottawa. It was 1 to 0 for 11 minutes in the third when Roman made it 2 to 0. McCreedy raised the hopes of the Toronto followers with a pretty goal for the blue shirts but Darrach sealed it up with another rush in four minutes and the puck had just been released when Roman shot and caught Holmer off his guard making it 4 to 1. The Toronto put up a battle royal in the first and second periods, but they were played to a standstill in the third. The ice was soft on account of the mild weather and both line were thus handicapped.

Over seven thousand persons were in attendance, seats selling as high as 125 per cent. Hundreds had to be turned away.

Coast Hockey.
Vancouver, Jan. 26.—The Crutcher 8000 of the Pacific coast hockey series will be played on Tuesday next when Victoria clashes with Vancouver here. If Vancouver puts over a victory they will have the championship practically clinched. Frank Neighbour, injured a month ago, will make his re-appearance on the Vancouver line-up in this game.

Pelley Knocked Out.
Haltersfield, Calif., Jan. 26.—Kid Kennah knocked out Arthur Pelley in the sixth round, a scheduled 20 round fight at Taft, Calif., Saturday night. They are heavy weights.

Thomas Morris, of Westerville, Neb., claims to be 120 years old.

McLeod vs. Thompson.
Dunn vs. Eech.
A. W. Johnson vs. Fairchild.
Calgary Brewing trophy—
Morrison vs. Mason.

Tuesday, Jan. 28
The following rinks will play at Royal rink: Robertson, Beak, Hovaris, Macdonald, McGee and Charlesworth.
At Capital rink: Cantley, Reid, John Gilchrist, Edwards, Gadden and J. H. Johnson.

Wednesday, Jan. 28
Calgary Brewing trophy—
Beak vs. Thompson.
Jellott vs. Archibald.
Richards vs. Chattell.
Dunn vs. Cox.
Hull vs. Pearson.

Thursday, Jan. 30
Calgary brewing trophy—

TODAY IN PUGILISTIC ANNALS

1907—Jack Blackburn defeated Billy Burke in six rounds at Philadelphia.

Blackburn, it is announced, will soon return to the ring, following his release from a Pennsylvania prison, where he has been serving a term for murder. Blackburn was just beginning to come to the front at the time of the Burke bout, and within a coming he was hailed as a coming welterweight champion. His heavy, there is no doubt that Blackburn could have won the lightweight title. He was whipping all comers, and making a big income from his battles, when a brawl that ended in a tragedy put an end to the time at least, to his wonderful ring career. In prison Blackburn has been a model in behavior, and has kept in good condition.

1908—Al Knuffman defeated Dave Barry in 15 rounds at Los Angeles.

CANADIENS BEAT WANDERERS 9 TO 1.

Montreal, Jan. 26.—The Canadiens defeated Wanderers Saturday by a score of 9 to 1 in a match that developed into a painful tortuous. Wanderers' efforts would hardly have earned them a decision in the City league, and the individual play of some of the team would almost create the impression that they were seeking their release rather than championship honors. The heavy condition of the ice did not offer any advantage to either team.
